

Dear Chief Rubin,

Sept. 14, 2007

I wanted to send a "thank you" to some of your fire fighters and EMS team for their assistance on Monday, Sept 17, 2007 right out side the Dupont Circle Metro Station on 19th Street.

I have been undergoing Chemotherapy for Cancer since Jan. My energy level gets very taked & tested when I walk too long or climb stairs.

On Monday, the up escalators were off and I had to climb the escalator. Needless to say, by the time I neared 19th Street I was very winded and physically stressed.

The wonderful team of fire fighters saw me & knew I needed assistance - though I didn't think so - at first. They sat me down & gave me oxygen. They asked if I wanted to go to the hospital - & were just so WONDERFUL & truly CARING!

I didn't go to the hospital but once I felt better headed to work.

I know too often we hear the bad stuff. I wanted to make sure you hear some of the good & wonderful stuff.

Please thank the men & women who were there. Please let them know how much I appreciated their assistance.

(PS. I was the short, middle aged woman with some silver hair growth)

many
than

Many thanks to them,

Sheri Leonardo
